Meals served to childcare children

**46**

children were cared for during our Emergency Pandemic Child Care for first responders, medical professionals, and essential employees

**1,200**

hours of volunteer service

For nearly 155 years, the YMCA has responded to our communities most pressing needs. The COVID-19 pandemic presented unprecedented challenges to our organization, and our service to our great community. Our response was to continue our mission, even when we had to close our doors to visitors. During the closure the Mansfield Area Y offered Pandemic Childcare services to support families who worked in emergency services and those who provided essential health care services to our community. Throughout this unparalleled time, social distancing did not become a barrier for us supporting each other. The Y is a connector to a vast network of community partners. We worked together to move individuals, families and communities forward.
